PRODUCTION SYSTEMS	PROMOTIONS IN 18 MO	HOSPITAL DEPARTMENTS	MCAT · 522/528

PROFILE

AI Automation Engineer who went from hospital IT intern to leading a health system's AI & automation program in under 18 months (two promotions). Shipped 25+ production systems used daily by clinical and operational staff — an operating-room inventory platform, a real-time HL7-fed patient-flow dashboard, a leadership project-management app on Azure, an AI voice pipeline, and a private LLM on an air-gapped server. Medical training (top-1% MCAT, pre-clinical medicine) plus Anthropic's Claude Certified Architect, Azure AI-102 and FHIR certifications: I translate clinical requirements into HIPAA-compliant software and present it to executives.

EXPERIENCE

AI Automation Engineer
May 2026 – Present

DHR Health · Remote

- Lead AI & automation projects for a 500+ bed health system; set development standards for the AI team and mentor a junior engineer.
- Designed, built and hosted North Star, a leadership task & project-management platform: migrated a local Flask app to Azure Web App + Azure SQL, handed off resources and passed internal security review.
- Built an AI call-center pipeline with LangChain: speech-to-text → RAG-grounded answers → text-to-speech → intelligent call routing.
- Deployed a private LLM on an air-gapped Linux server (Docker, Ollama, Open-WebUI) for secure on-network inference with zero external egress.
- Own CLAIMS RPA (claims-workflow automation) and ORBIT patient charging; present roadmap and results to executive IT leadership.

Luigi Founder & Principal Engineer
Feb 2026 – Present

Luigi AI LLC · Registered Texas LLC · luigiai.dev

- Founded and registered Luigi AI LLC (Texas, February 2026): AI automation and custom software consulting for clinics and small teams, with brand, website (luigiai.dev) and banking established.
- Scope and deliver LLM, RPA and HL7/FHIR integration engagements; designed and built the consulting site and this portfolio.

Associate AI Automation Engineer
Sep 2025 – May 2026

DHR Health · McAllen, TX

- Co-designed ORBIT (OR barcode inventory + preference cards: SQL Server, Python on IIS, RBAC/SSO, HL7, Infor ERP) and scaled it to multiple sites.
- Built Mission Control (HL7 ADT → .NET TCP listener → live patient dashboard) and led the FHIR sepsis-alert server application.
- Shipped 18+ production solutions in 4 months (365 Manager, DuMbSheets, Medisoft parser, Paragon RPA, Infor and Mimecast tooling); same-day fixes at OR go-live; presented to executive IT.

CERTIFICATIONS

- **Claude Certified Architect – Foundations**
  Anthropic · Oct 2026
- **Microsoft Azure AI Engineer Associate (AI-102)**
  Microsoft · Dec 2025
- **HL7 FHIR Fundamentals**
  HL7 International · Nov 2025
- **CompTIA A+**
  CompTIA · Sep 2024
- **CS50x: Introduction to Computer Science**
  Harvard University · Completed
- **Google Cloud Certification (entry level)**
  Google Cloud · Completed

EDUCATION

Boston University 2027
Candidate, M.S. in Computer Science & Artificial Intelligence

Baylor University 2016 – 2020
B.S. Biology — Magna Cum Laude, GPA 3.94
President's Gold Scholarship · Golden Key · Alpha Epsilon Delta · Dean's List

UT Health San Antonio, Long School of Medicine 2021 – 2024
Pre-clinical medical curriculum
Admitted on a 522/528 MCAT (99th percentile); deep grounding in clinical workflows

UC San Diego 2026
Python Certification Program (with data-science elective)

IT Systems Analyst (Intern → Full Rotation)
Nov 2024 – Sep 2025

DHR Health · McAllen, TX

- Rotated through Integration, Server Administration, Network Security, Applications Development, Help Desk and Service Desk.
- Supported enterprise end-user operations and ticket workflows across clinical systems; selected for the new AI team on performance.

Research Associate
2020 – 2021

Doctors Hospital at Renaissance · McAllen, TX

- Supported clinical trials incl. the Zika Virus DNA Vaccine Phase 2/2B trial (VRC 705); data collection, protocol adherence and reporting.

MCAT Mastery Tutor
2018 – 2020

Independent · Virtual

- Tutored pre-med students for the MCAT, leveraging a 522/528 (99th percentile) score.

SELECTED PROJECTS · HIPAA-COMPLIANT

ORBIT — MULTI-SITE
OR barcode inventory + preference-card platform
Python · SQL Server · IIS · HL7 · Infor

Compensation Tracker — FINANCE
Provider pay: location and hours in, every payment calculated out
Millions of dollars a month

Starboard — MULTI-DEPT
Project management and ticketing for CI, BI and other departments
Thousands of tickets

AI Call Center — GENAI
STT → RAG → TTS voice agent with routing
LangChain · speech services

Private LLM — AIR-GAPPED
Air-gapped on-network LLM for PHI-adjacent work
Linux · Docker · Ollama

FHIR Sepsis Alerts — CLINICAL
FHIR server app + capability statement
HL7 v2 / FHIR · Python

PUBLICATIONS

1. AI-Derived Body Composition Metrics Are Associated with 24-hour Urine Markers Using Routine CT Imaging — GOLD Journal, 2025
2. VRC 705: Phase 2/2B Randomized Trial of a Zika Virus DNA Vaccine in Healthy Adults and Adolescents — NIAID, 2019 (contributor)

4. Electrical Field Influence on Growth of Brassica rapa — Scientia, Baylor University, 2017

SKILLS

AI & LLM
Azure AI services · LangChain · RAG / vector search · Ollama & Open-WebUI · Hugging Face · Claude / OpenAI APIs (Claude certified) · Speech (STT/TTS) · Agent design

Healthcare Interoperability
HL7 v2 (ADT/ORM/ORU) · FHIR (certified) · EHR integration · Paragon · Infor · Medisoft · Clinical workflows · HIPAA

Backend & Data
Python · Flask · SQL Server / T-SQL · pandas · .NET services · REST APIs

Cloud & Infrastructure
Azure Web Apps & SQL · Linux · Docker · IIS / Windows Server · Microsoft 365 / Graph

Automation
RPA (PyWinAuto) · ETL pipelines · Scheduled jobs · Email automation

HONORS

- MCAT 522/528 — top 1% nationally
- Mensa International member
- Magna Cum Laude, Baylor University
- President's Gold Scholarship
- Pinkoson Family Pre-Medical Scholarship
- F. Ray Wilson Biology Scholarship
- Golden Key International Honour Society
